<b>On satisfactory completion of the mandatory attachments and Advanced Practical Course a Leader will move into the 4-month Wood Badge evaluation period. After 4 months the Wood Badge Evaluation will be conducted with the relevant District / Region Commissioner or nominee.</b>			

## **Wood Badge Project**

One of the final tasks of your Advanced Training is the completion of your Wood Badge Project. Your project will give you opportunity to develop greater personal understanding and appreciation of the Fundamentals of Scouting in an area of interest identified during your training.

Your Wood Badge project will be planned using attachments 4.40, 4.41 and the completed activity documented using attachments 4.59 and 4.60. These attachments will be provided to you at the conclusion of your Basic Practical Course, and are also available in the Intro to Advanced Leadership Training e-learning module.

The project may be commenced any time following the commencement of your Adult Training. Your project planning (aim goals and timeframes for delivery- 4.40, 4.41) should be discussed with your PLA or Team Leader, or options may be agreed discussed on your Advanced Practical Course.

On completion of your project, please document your activity (4.59, 4.60) and discuss with your PLA or Team Leader. The project and relevant attachment may be completed at any time after the Basic Practical Course, but MUST be completed by the end of the Wood Badge evaluation period and prior to the Wood badge evaluation interview.

## **Wood Badge Evaluation**

Post completion of the Advanced Practical Course and successful completion of the mandatory attachments there is a four (4) month Wood Badge evaluation period. During this time regular contact should be maintained with your Team Leader and/or PLA. At the end of the evaluation period the District / Region Commissioner, or nominee will conduct an evaluation interview and complete a Wood Badge evaluation form. This form includes confirmation that the Wood Badge Project and attachments have been completed.

The Wood badge evaluation period is regarded as a period of observation and support of the work of a Leader to ensure:

1. The Association and Leader concerned are satisfied their training has been adequate.
2. The training is being applied.
3. That an acceptable level of proficiency has been reached.

In particular, the Leader working within their appointment is expected to demonstrate:

1. Skills leadership
2. Ability to apply the knowledge of Scouting's Aim and Methods for the betterment of each Youth Member
3. Ability to work productively with other Leaders and Support Members at all levels
4. Good example, particularly in acceptance of the Promise and Law
5. Good spirit
6. Satisfaction from the practice of skills.

It may be identified that during this period a Leader needs personal coaching in points not fully grasped during earlier training or counselling, or personal aspects of implementation. If required, the 4 months evaluation period may be extended.

## **Scouts Australia Institute of Training (SAIT)**

For Leaders who wish to gain a Certificate III in Business or a Certificate IV in Leadership and Management application can be made to SAIT via a Recognition of Prior (RPL) process. Please contact the Training Department at the Branch Support Office for more information.
