Arrivals and Departures

Scouts Queensland Holiday Outdoor Experience programs adheres to the “Scouts Queensland Child Protection Policy”. Scouts Queensland has strict procedures regarding the arrival and departure of children and particularly the persons who may collect children from the program. This policy is [available here](#).

Scouts Queensland Holiday Outdoor Experience program opens at 8.00am with the formal program starting at 9:00am and finishing at 4pm. Pickups can be from 4pm but no later than 5pm. No child will be admitted prior to opening time. All children are to be signed in and out on the Attendance Register by the parent/guardian or other person whom the parent/guardian has nominated on booking, or subsequently in writing, as being authorised to do so. This Register states the child’s name and exact time of arrival and departure, printed name of authorised person and signature.

Children should not be dropped off outside the premises; they must be accompanied to the registration desk of Scouts Queensland Holiday Outdoor Experience program and signed in by the parent/guardian. The program will not take responsibility for children whose parents/guardians allow them to walk/ride unsupervised to the program.

If a person is to collect a child who has not been nominated upon enrolment i.e. in the case of an emergency, the parent or guardian may give permission by email or text message. The email and text phone number must match the contact detail we have on file. The parent/guardian must provide the name and description of any such person concerned and proof of their identity will be required on arrival.

If by 5:00pm children have not been collected or parents/guardians have not made arrangements for collection by normal closing time, they will be contacted on the most recent numbers and if necessary, emergency numbers provided. If no contact is made via emergency numbers advice will be sought from Police and/or Crisis Care

Parents/Guardians who have residential rights and do not wish the other parent/guardian to have contact with their children must provide a current copy of the court papers. Staff will, where it is possible without unreasonably endangering any person, not allow children to be released to any person other than the custodial parent/guardian, or to an authorised person as permitted under the above procedure. If in doubt, the Holiday Outdoor Experience Program Coordinator will contact a parent/guardian immediately to discuss.

Whilst every care will be taken to prevent a child being collected by an unauthorised person, there may be instances in which we cannot prevent this from happening. Our staff cannot expose themselves or the other children to an unacceptable risk of personal harm. If a child is taken in these circumstances, the Police will be called immediately.

If a child is required to be absent during the Scouts Queensland Holiday Outdoor Experience programs operating hours, written authority must be given prior to the commencement of the activity. Staff will not be available to deliver or collect children from external appointments due to staffing ratios.

Parents/Guardians are asked to consider this when enrolling children in these activities. Scouts Queensland Holiday Outdoor Experience programs will not permit a child to leave the service unaccompanied to attend an external appointment unless an External Appointment Permission Form detailing time of departure, indicating a release of duty of care has been provided by the parent/guardian. Please email the holidayadventures@scoutsqld.com.au

If families have an emergency appointment and wish to collect children quickly from the service, please telephone in advance and staff will endeavour to have the children ready when parents/guardians arrive.

Behaviour Support and Management

We accept that children will come to Scouts Queensland Holiday Outdoor Experience programs from a variety of backgrounds and various stages of socialisation. Children should be happy and want to attend our Program. Behaviour support and management strategies play an important role in the smooth and safe running of the Holiday Outdoor Experience program.

If your child has a Behavioural Management plan for School and /or home, please supply a copy and discuss with the Program coordinator.

Your child will not be disadvantaged if a plan is in place but will allow the Staff to understand triggers and control mechanisms to which and that your Child accustomed.

Our Staff handle all issues involving the children at Scouts Queensland Holiday Outdoor Experience programs. Parents are asked not to approach other children within the program. Parents/Guardians are responsible for their child's behaviour while on the premises but the rules of the program still apply. If a staff member observes a child breaking the rules they will discuss the behaviour with the child.

Supervised timeout will be used where required to allow a cooling-off period for the child. This timeout will be no longer than 10 minutes, or as defined by an individual behavioural plan.

Scouts Queensland Holiday Outdoor Experience programs have a duty of care to all children who attend and staff who work within the program if:

- A child places the safety and well-being of others at risk; or
- A child exhibits any form of bullying or deliberately hurtful behaviour repeated over a period of time (this includes physical, verbal or indirect bullying, which includes explicit ostracism from a social group); or
- A child continually refuses to comply with the rules of the program, then the child whose behaviour is inappropriate or has caused the threat to safety or wellbeing may be excluded from Scouts Queensland Holiday Outdoor Experience program temporarily or, in some cases, permanently.

Personal Care

If your child has additional needs, please contact the Coordinator before the program commences. This information will help us to meet the needs of your child. Issues discussed will be:

- Level of support the child requires;
- Duration of support;
- Necessary training of staff and volunteers;
- The safety of all children enrolled;
- Environmental factors; and
- Sources of information and resources/support services that will ensure the best possible care of the child.

This information will help us to meet the needs of your child.

Illness and Injury

Whilst Scouts Queensland Holiday Outdoor Experience programs actively strives to provide a safe environment, there may be occasions when accidents or injuries take place. In the case of a minor illness or injury, a staff member will attend to the incident and an Illness and Injury Report will be completed. Please sign this form after speaking with staff to verify you have been advised of the incident. If a more serious incident occurs, the child's parent/guardian will be contacted immediately.

Children who are ill will not be accepted by Scouts Queensland Holiday Outdoor Experience programs.

Qualified staff will administer basic first aid only. If contact cannot be made with parent/guardian and it is necessary to seek medical attention immediately, an ambulance will be called and the child will be taken to hospital.

If your child has a condition requiring a medical emergency plan, we will require a copy. EpiPens will need to be supplied by the Parents if required.

Medication

All medication is to be given to the Coordinator. No medication is to be stored in a child's bag unless they are EpiPens or Asthma inhalers. Staff will be made aware that these are available and where in the bag they are stored.

For asthma, diabetes or other similar ongoing medical conditions, parents/guardians are required to advise the Coordinator in writing whether their child will be responsible for administering their own medication or will require supervision and full details of how, when (i.e. at what intervals) and by whom all such treatment is to be administered.

- A prescribed medication;
- In its original package with a pharmacist's label which clearly states the child's name, dosage, frequency of administration, date of dispensing and expiry date; and

Staff are not trained to administer injections (except if they are self-injectors).
