

Leaders, Venturer – Scouts, Rovers, and Adult Helpers

The base cost for Leaders, Venturer - Scouts (classified as Leaders for SSS), Rovers and Adult Helpers attending SSS is \$28.

Venturer – Scouts must also read this information in conjunction with the Venturer – Scout Application Information sheet also located in the downloads section.

Applications for SSS will be made through the online application management system (AMS). This can be found on the Qld Branch web site. On the navigation bar there is a link for Event Registration which will take you to a login page. If you've previously registered for events through this system then you will already have a login user name and password. This login information can be used for multiple events. Please note this is the Qld Version not the National version that you may use for National events. If you haven't logged in before then your first step will be to register as a new user. An email will be sent to you to verify your email address and you need to respond to that email to complete the registration. You can now login to AMS.

On the login page there is a guide to AMS, please take the time to download and read the instructions in that guide.

Once you have logged in you will see a number of events available to you. Click on the apply link for SSS 2021 and this will commence your application. The guide available on the login page details the general process for completing an application so this guide will deal with information that is contained in the **event specific** tab only.

Scoutcraft Name

This is for your usual Scouting name that you go by.

Leader Attendance

Each Scout Troop will need a leader from their Group in attendance during SSS. If two leaders attend on a 50% basis (that is – two days each) then both leaders will need to register on the application system. In previous years neighbouring groups may have had an arrangement in place if a leader from one group could not attend. For security and safety, patrols must have a leader in attendance all weekend.

Catering

Leaders have the option to cater for themselves during the weekend or to be catered for in the Snow Centre from Friday evening to Monday Lunch. You need to indicate which meals you wish to be catered for.

For Saturday night most Leaders will have received an invitation from a Patrol for a gastronomic delight and some good company. They will have contacted you prior to SSS regarding any dietary requirements. If you are one of the unfortunate ones that misses out then you will need to provide your own meal on that night.
