

Joey Scout Base

Paddle pop stick catapult

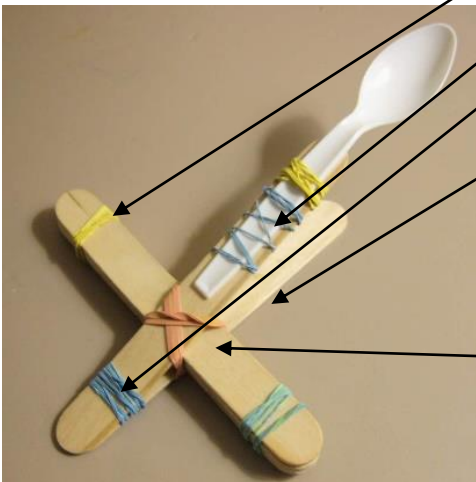

Equipment

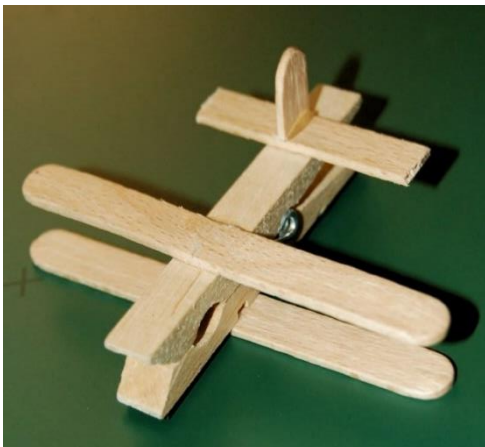

- 6-9 paddlepop sticks
- Plastic or bamboo spoon
- rubber bands
- Ping pong balls or mini marshmallows

Method

- Wrap a rubber band around each end of 4-6 paddlepop sticks.
- Attach the spoon to another paddlepop stick.
- Attach another paddlepop stick at the bottom to the stick with the spoon attached.
- Open these two sticks and slide the pile of 4-6 sticks into the opening.
- The further back into the opening you can push it creates a larger gap below the spoon which will increase how far the ball will fly.
- Attach all the sticks together as a criss-cross

Paddle pop aeroplane

Equipment

- Wooden peg
- Craft glue
- 3 paddle pop sticks
- Box cutter or scissors

Method

1. Cut the round ends off one paddle pop stick.
2. Glue one of the round ends onto the short piece of stick.
3. Glue a stick on the top and another on the bottom of the peg for the wings.
4. Glue the tail wings to the peg.
